## PROJECTS

### studyNotion

06 Feb, 2024 - 25 Apr, 2024

**Team Size:** 6

**Key Skills:** React.js Tailwind.css react-hook-form react-multistep

**Project Link:** <https://github.com/ShubhamKH08/studyNotion>

StudyNotion is a fully functional ed-tech platform that enables users to create, consume, and rate educational content. The platform is built using the MERN stack, which includes React.js, Node.js, MongoDB, and Express.js. Using React with Tailwind CSS, I implemented various pages and components essential for students, instructors, and administrators. My responsibilities included creating responsive layouts, integrating API calls for data retrieval and updates, and ensuring accessibility and performance optimization.

### petCare

01 Aug, 2023 - 01 Dec, 2023

**Team Size:** 1

**Key Skills:**

MongoDB Express.js React.js Node.js UI/UX MERN OpenAI API jwt bcrypt react-router-dom  
react-toastify

**Project Link:** <https://petcare-mohitjaiswal.netlify.app/>

As a Full Stack Developer, I led the design and implementation of a forward-thinking pet care platform, leveraging React.js for the frontend and Node.js/Express.js for the backend. I managed database operations using MongoDB Atlas and integrated an AI chatbot, Simba, using OpenAI API. Additionally, I conceptualized and designed the platform's UI/UX. I conducted thorough testing and debugging procedures to guarantee the platform's reliability and robustness across diverse environments.
